INTERDISCIPLINARY and EVIDENCE BASED TRAINING in EARLY CHILDHOOD INTERVENTION

This post baccalaureate program is focused on enhancing the knowledge, skills, and competence of practitioners and administrators working in the CT Birth to Three System.

Completion of the training program provides knowledge that can be applied to the CT OEC Birth to Three certification under the supervision of a program administrator.

Training Format	Training Content	Requirements
<ul style="list-style-type: none">Three interactive on-line courses over 12 months	<ul style="list-style-type: none">Family Centered Practice	<ul style="list-style-type: none">Bachelor's degree
<ul style="list-style-type: none">Monthly in person all day class	<ul style="list-style-type: none">Assessment and Evaluation	<ul style="list-style-type: none">Employed in CT Birth to Three
<ul style="list-style-type: none">Completion of competencies for each course	<ul style="list-style-type: none">Intervention through a Team-Based Approach	<ul style="list-style-type: none">Program administrator approval

"What seemed impossible at the beginning turned into one of the best experiences of my life. I grew so much, gained skills, and built confidence that will stay with me." Nuno Figueiredo, DT, Beacon, Birth To Three

"The Early Intervention Program gave me a community of colleagues, a framework of knowledge, and a well-polished family-centered lens to carry forward into my work in this field. The payoff in professional growth is worth all the hard work."

- Ginger May, DT Reachout, INC.
